

Zeeyad Khan

Product Designer | AI Design Specialist

San Francisco, CA

(415) 308 2595 | zeeyadenkhan@gmail.com | zeeyadkhan.com | linkedin.com/in/zeeyadkhan/

Professional Summary

Product designer with end to end experience across discovery, user research, information architecture, interaction design, and visual design. Specializes in translating complex workflows into clear, intuitive interfaces for data heavy platforms across legal tech, real estate, and hospitality. Builds and maintains design systems and pattern libraries, prototypes rapidly in Figma and in code, and partners with product managers and engineers to balance customer needs, business goals, and technical feasibility. Grounded in accessibility (WCAG) and AI assisted design workflows.

Professional Experience

Visual Designer at Park North Real Estate (Freelance)

San Francisco, CA | April 2026 – Present

- Continue as the brokerage's independent design partner after two years in house, owning the design system and brand guidelines I established.
- Deliver ongoing website updates, listing collateral, and campaign creative on a project basis while maintaining visual consistency across channels.

Graphic Designer at Innodata (Freelance)

San Francisco, CA | September 2025 – Present

- Refined high quality AI training datasets through visual quality assurance, alignment reviews, and data integrity audits.
- Created annotation templates and structured feedback workflows that improved consistency and reduced repetitive review time.
- Partnered with engineers to establish visual standards enhancing precision and reliability in dataset production.

Visual Designer at Park North Real Estate

San Francisco, CA | April 2024 – April 2026

- Redesigned the brokerage website and unified its brand system, improving user engagement by 20% and increasing property inquiries by 25%.
- Developed responsive layouts, social media templates, and marketing collateral that strengthened brand consistency across digital channels.
- Built a scalable design system and visual guidelines that streamlined collaboration between marketing teams and agents.

Product Designer at Legaleey (AI Driven Legal Research Platform Redesign)

San Francisco, CA | June 2023 – November 2023

- Conducted user research with 15 lawyers and non lawyers to map document search workflows and surface pain points.
- Translated research into user flows, wireframes, and high fidelity prototypes, then shipped a redesigned interface with AI powered filters that reduced search time by 80% and improved task efficiency fivefold.
- Delivered a more intuitive experience that boosted adoption and strengthened product differentiation in the legal tech market.

Product Designer at NOMADO (Restaurant and Hospitality Digital Menu Redesign)

San Francisco, CA | November 2022 – May 2023

- Led a full redesign of the digital menu system, running 10 rounds of usability testing on interactive prototypes to improve discoverability and conversion.
- Created clear categorization, responsive layouts, and branded visuals that increased order completion by 30% and reduced user friction by 20%.
- Delivered a modernized digital experience that improved customer satisfaction and reinforced brand perception.

UX Designer at Fursure (Internship)

San Francisco, CA | January 2021 – March 2021

- Conducted market and user research to inform product strategy and user experience direction.
- Designed visuals, infographics, and data summaries for investor presentations that helped secure 6 million dollars in seed funding.
