

Zeeyad Khan

AI Product Designer

San Francisco, CA

(415) 308 2595 | zeeyadenkhan@gmail.com | zeeyadkhan.com | linkedin.com/in/zeeyadkhan/

Professional Summary

AI product designer working end to end, from discovery and user research through information architecture, interaction design, and shipped interface. Designs, codes, tests, and ships working tools independently, prototyping in Figma and in code rather than stopping at mockups. Focuses on making AI behavior legible and trustworthy, so people can see what a system is doing and why. Builds and maintains design systems and pattern libraries, works to accessibility standards (WCAG), and partners with product managers and engineers to balance user needs, business goals, and technical feasibility.

Professional Experience

Visual Designer at Park North Real Estate

San Francisco, CA | April 2024 – Present (transitioned to freelance April 2026)

- Redesigned the brokerage website and unified its brand system, improving user engagement by 20% and increasing property inquiries by 25%.
- Built a scalable design system and visual guidelines that streamlined collaboration between marketing teams and agents.

Graphic Designer at Innodata (Freelance)

San Francisco, CA | September 2025 – April 2026

- Refined high quality AI training datasets through visual quality assurance, alignment reviews, and data integrity audits.
- Created annotation templates and structured feedback workflows that improved consistency and reduced repetitive review time.
- Partnered with engineers to establish visual standards enhancing precision and reliability in dataset production.

Product Designer at Legaleey (AI Driven Legal Research Platform Redesign)

San Francisco, CA | June 2023 – November 2023

- Conducted user research with 15 lawyers and non lawyers to map document search workflows and surface pain points.
- Translated research into user flows, wireframes, and high fidelity prototypes, then shipped a redesigned interface with AI powered filters that reduced search time by 80%.
- Validated the redesign through a demo release with early law firm customers, confirming the search improvements held up against real document sets.

Product Designer at NOMADO (Restaurant and Hospitality Digital Menu Redesign)

San Francisco, CA | November 2022 – May 2023

- Led a full redesign of the digital menu system, running 10 rounds of usability testing on interactive prototypes to improve discoverability and conversion.
- Created clear categorization, responsive layouts, and branded visuals that increased order completion by 30% and reduced user friction by 20%.

UX Designer at Fursure (Internship)

San Francisco, CA | January 2021 – March 2021

- Conducted market and user research to inform product strategy and user experience direction.
- Designed visuals, infographics, and data summaries for the investor deck used in the company's seed raise.
